## Environmental Policy

### Policy Statement of Intent

Aird Walker & Ralston Ltd recognises and accepts its legal obligations and responsibilities regarding the proper management of environmental aspects and impacts of its business, to carry out its activities in an environmentally and socially responsible and sustainable manner.

It is the established environmental policy of the company to operate an Integrated Management System with environmental elements conforming to the requirements of BS EN ISO 14001:2004. The Company is committed to the continuous improvement of the environmental aspects and impacts of this system. Our environmental policy and practices show that we take our responsibility seriously, to ensure the safety of our operations, minimise the impact on the environment and to conserve natural resources. We will monitor, review and record the Aspects and Impacts, recognising those aspects which have the most significant impact. It is the company's policy to concentrate its efforts on the significant areas responsible for most of the company's emissions: Transportation, Heating and Electricity.

To conduct its undertakings in such a way as to ensure, so as far as is reasonably practicable, that noise, harmful emissions to the atmosphere, contamination of water supplies / water table from fuel or any other harmful substances, hazardous substance / waste disposal, compliance with local authority requirements with regards to the preservation of the environment as detailed in our Carbon Reduction Policy.

We are committed to the disposal off and or recycling of electrical and electronic equipment used within our products and service, whilst complying with statutory and regulatory requirements as detailed in our WEEE Policy, whilst recycling wherever possible reducing the quantity of waste disposed of to land fill sites.

This policy is to be reviewed on an annual basis or sooner in the event of any change in legislation or procedure affecting the policy. As noted elsewhere within the policy, the company has adopted a detailed environmental system which is continually improved through the use of external organisations and company individuals.

Compliance with the Environmental Policy, Procedures and Process requirements is expected from all employees, whom are provided with awareness training via toolbox talks and site inductions.

We shall make this Policy and the resultant objectives known to our employees / relevant stakeholders and will demonstrate our belief in it through our own personal commitment and involvement.

It is the ultimate responsibility of the Directors for overseeing the implementation of this Environmental Policy.

Signed

Gordon Christie
